Hi Stephen,

I asked Phil Harte (USGS NH/SC) to review the dye trace study since he has extensive experience in groundwater studies. Phil has worked with EPA Region 1 and has helped with several other sites within Region 6. My schedule didn't allow time for me to review this document and I am thankful Phil was able to review the document. In addition, I thought it would be good to get another set of eyes on what is happening at the site.

I have attached Phil's comments below. Please let me know if you have any questions.

Thanks.

Kent Becher
